CARA EVENT & TENT HIRE

Tent Seating Planner

Tent and marquee hire in Cork: maximum-capacity table & chair layouts for every size we stock

Please note: this is a guide only. The layouts and capacities shown are based on what our customers generally do, so treat them as a starting point rather than a rule. Every event is different and we are happy to adjust to suit yours.

This is a living, growing guide. It currently covers our full pop-tent and Hi-Peak marquee range with maximum-capacity seating layouts. Future editions will add more comfortable (non-maximum) seating options, additional table styles, and real event photos.

1. How to read this guide & modular expansion

Each section that follows shows the maximum comfortable seating capacity for one of our tent or marquee sizes, using our own trestle tables and folding chairs. Every layout is drawn to scale from the actual dimensions of the structure, and priced using our current rates.

> **These structures are modular — you're not limited to one unit.** Our pop-tents and marquees can be joined or placed side by side to create custom combined capacities. For example:
>
> - Two 4m x 4m Pop-Tents side by side ≈ one 8m x 4m footprint
> - An 8m x 4m Pop-Tent plus a 6m x 3m Pop-Tent for an irregular, larger space
> - Multiple 6m x 6m Hi-Peak Marquees joined end to end (this is exactly how our 6m x 12m and 6m x 18m Hi-Peaks are built — from 6m x 6m sections)
>
> Get in touch and we'll help you plan a custom combination for your exact numbers.

All prices shown include VAT. Tents/marquees are charged at 13.5% VAT; tables and chairs are charged separately at 23% VAT, so the two are never blended into one figure. **Delivery is not included** in any of the totals below — this depends on your location and will be quoted separately.
